You've probably heard of
BITCOIN
but what about
LITE BITCOIN?

What is LiteBitcoin?

LiteBitcoin / LBTC :-

Bitcoin reborn as LiteBitcoin, it is an experimental new digital currency that enables instant payments to anyone, anywhere in the world.

LiteBitcoin uses peer-to-peer technology to operate with no central authority: managing transactions and issuing money are carried out collectively by the network.

LiteBitcoin is also the name of the open source software which enables the use of this currency.

LBTC vision & Mission :-

To provide IT services and help Skilled people to have a better platform to provide IT services accepting LBTC (will be updated the services website soon).
